SPRINGFIT
MATTRESSES & SLEEP SYSTEMS
#worldcollection

INTRODUCING THE #WORLDCOLLECTION

The Springfit World Collection is an ode to luxurious comfort. A sublime blend of exquisite craftsmanship, impeccable materials and attention to detail. But what is truly powerful about this collection lies beyond what you can see. It is in the care, quality and integrity that goes into crafting each mattress.

Come, explore a collection that will dazzle the world.

THE WELLSPRING OF DEEP RESTFUL SLEEP

Deep restful sleep separates the happy and relaxed, from the dispirited and stressed. It may seem like hours whiled away, but sleep is the real fount of your energy, vitality and well being.

Sleep defines you. That is why we have developed a mattress so comfortable and exquisite, that it will captivate you for a lifetime. Infused with art, and science that has been refined into an art, the World Collection is the perfect balance of beauty and innovation.

THE INNOVATION THAT TAKES
SLEEP TO THE NEXT LEVEL

Our i-Sleep mattress is a celebration of innovative thinking and extraordinary craftsmanship. Some of the most advanced concepts have been imbued into this mattress, giving it the power to actually take care of you when you sleep. Every detail and each component has been carefully put together using ideas and innovations that redefine luxury, scientific sleep systems and an intuitive understanding of your sleep needs.

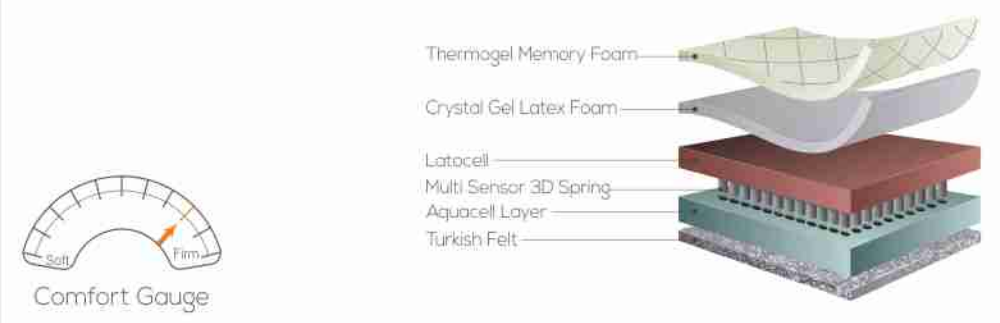

iSLEEP KRONO

The brand new i-Sleep by Springfit is a new benchmark in the mattress industry. It is the world's first and only mattress that is infused with Aqua Pocketed Technology and combines Thermogel Memory Foam with the revolutionary, patented Smart-Latocell and Aquacell Technology.

- THERMO GEL MEMORY FOAM**
An innovative visco-elastic layer that gets refreshed with human touch. It has millions of thermo-active gel capsules that have the ability to lower the temperature of the body part in contact by up to 4 degrees.
- NO FLIP MATTRESS**
No more struggling with your bed, thanks to our new and improved product, which lets you just lie down and get into a deep slumber. This unique no flip property helps you to sleep a stress-free and easy.
- MULTI SENSOR 3-D SPRINGS**
The Aqua Pocket Technology features 16 internal chambers that naturally and continuously adapt to your body's every position creating a supportive layer that provides greater support to specific stress areas of your body and offers instant comfort.

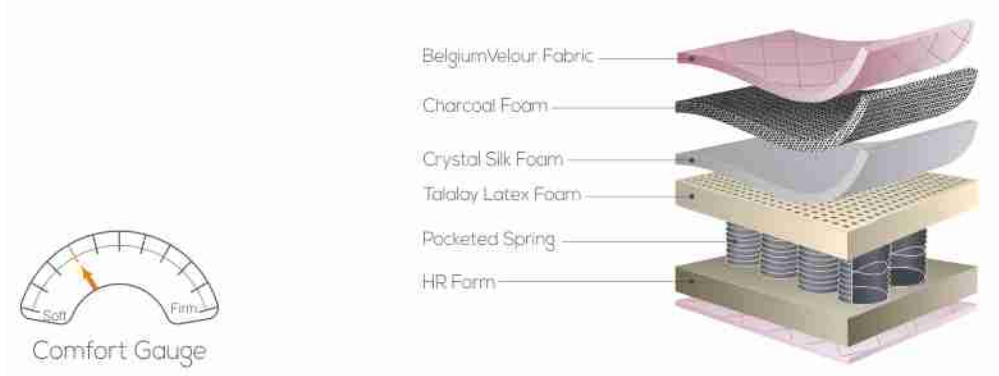

iSLEEP BLACK

A breakthrough concept in the mattress industry, the i-Sleep is the world's first and only mattress that is infused with Charcoal based Visco Elastic Technology and combines Talalay Latex Foam with the revolutionary, patented Smart construction. This powerful combination of never-before technology and concepts takes it to a whole new level of comfort and luxury.

- CHARCOAL INFUSED VISCO ELASTIC FOAM**
A unique process of infusing charcoal into Memory Foam, that leverages charcoals highly absorptive natures, delivers multiple benefits. This new foam can absorb moisture from humid air and then release it when the air is dry, thereby delivering superior temperature regulation.
- TALALAY LATEX FOAM**
The Pure Green Natural Latex Mattress features a simple combination of high quality, all natural components that work together to create an extremely comfortable sleeping surface.
- CRYSTAL SILK FOAM**
The i-Series mattresses also come with Multi-Sensor 3D carbon manganese alloy pocket springs which are anti-rust and last a lifetime. These special springs with independent movement of low height multi lift plates provide core support to every part of the body by maintaining a balanced platform.

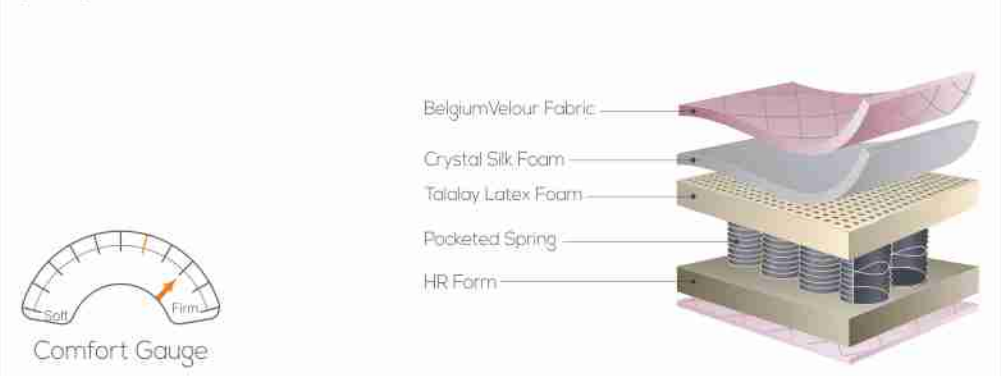

iSLEEP ORTHO

The i-Sleep is the world's first and only mattress that is a combination of with Talalay latex with gel infused silk foam with the revolutionary, patented Smart construction. This powerful combination of never-before technology and concepts takes it to a whole new level of comfort and luxury. The i-Sleep Ortho mattresses with a firm support layer prevents back pain and muscular discomfort and helps to improve blood circulation.

- BACK SUPPORT**
The combination of bonnel springs and re-active foam makes this mattress ideal for providing the right kind of support to your back. A dense and firm support base means that the back and its stress points are comfortably positioned and extra pressure is eliminated. Overall this mattress is the best for supporting the back and getting a good night's sleep.
- TALALAY LATEX FOAM**

SPRINGFIT
Club Class
Collection

A TOUCH OF CLASS
MAKES A CLASSIC

When craftsmanship is honed for generations it gives rise to a rare perfection. Something that is clearly reflected in the understated elegance and heightened comfort of the Club Class Collection. Its aesthetic appeal is surpassed only by the uniqueness of its pocket springs. Each spring moves individually and the weight on one spring barely affects adjacent ones. The effect is sleeping comfort that has no parallel.

SPRINGFIT
Club Class
Collection

Club Class
Grande

The Springfit Club Class Grande brings together the finest quality pocketed springs and a thick layer of pressure relieving, temperature sensitive memory foam. The thick top layer of memory foam responds to body temperature and moulds as per body contours by creating an individually tailored surface for optimum support and comfort. Later it returns to its original shape, therefore eliminating the need to flip the mattress.

MEMORY FOAM

The NASA approved memory foam layer makes the body freely float on the mattress. This helps in improving blood circulation in the body. Also, due to its low bounce back properties, this foam does not put any pressure on our body pressure points.

LATEX FOAM

This foam keeps you warm during winters and cool during the summers. Latex foam is known as the most durable foam, which provides the ultimate comfort and lets you sleep in the lap of true luxury.

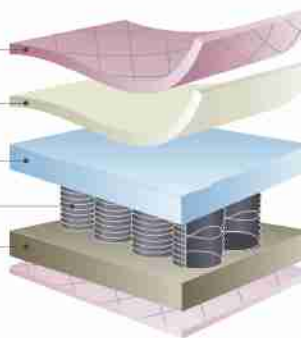

NO FLIP MATTRESS

No more struggling with your bed, thanks to our new and improved product, which lets you just lie down and get into a deep slumber. This unique no flip property helps you to sleep a stress-free and easy.

Club Class
Natura

The Springfit Club Class Natura mattress is the natural way to get energized through restful uninterrupted sleep. It adjusts according to body temperature, keeping you cool in summers and warm in the winters. The individually wrapped soft pocketed spring structure combined with unique imported smart latex, means that the top layer of latex doesn't create any pressure at the stress points of the body during sleep.

LATEX FOAM

This foam keeps you warm during winters and cool during the summers. Latex foam is known as the most durable foam, which provides the ultimate comfort and lets you sleep in the lap of true luxury.

ZERO PARTNER DISTURBANCE

The individually packed inner springs absorb weight and compress independently of each other. This means that you will feel almost nothing when your partner moves. With pocket spring our bodies are well supported and are most comfortable, thereby significantly reducing our tossing and turning during sleep.

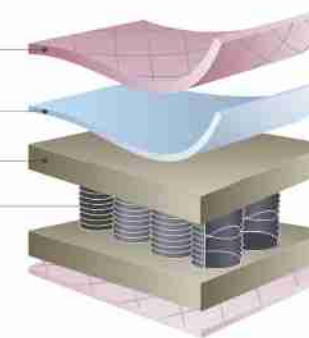

CARBON-MANGANESE ALLOY SPRINGS

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

SPRINGFIT
ORTHO LIFE
Collection

A MATTRESS THAT
BACKS UP EVERY PROMISE

When it comes to your health, nothing less than the extraordinary will do. The Ortho Life Collection has been obsessively designed by our sleep experts and mattress specialists to relieve pressure on the most painful parts of your body. Its unique combination of springs and re-active foam spreads weight evenly across the mattress, promising ideal support for your back and a peaceful night's sleep for you.

SPRINGFIT
ORTHO LIFE
Collection

ORTHO LIFE
PRO

The Ortholife Pro back care bonnell spring mattresses with a re-bonded foam layer prevents back pain and muscular discomfort and helps to improve blood circulation. Our Ortholife mattresses are specially designed to effectively absorb any spring action and ensure deep restful sleep through overall optimal comfort.

RE-ACTIVE FOAM

This open cell foam is created from shredded pieces of foam, which is then re-activated to form one single piece of foam. Re-active foam is very dense and provides a solid and firm support base. The extraordinary density ensures ample support for the spine and optimal distribution of body weight.

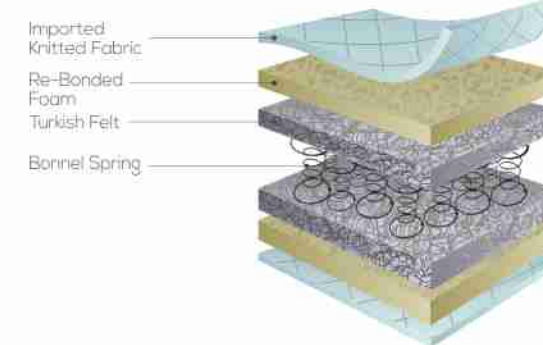

CARBON-MANGANESE ALLOY SPRINGS

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

BACK SUPPORT

The combination of bonnell springs and re-active foam makes this mattress ideal for providing the right kind of support to your back. A dense and firm support base means that the back and its stress points are comfortably positioned and extra pressure is eliminated. Overall this mattress is the best for supporting the back and getting a good night's sleep.

ORTHO LIFE
EURO

This Ortholife memory foam back-care bonnell spring mattress prevents back pain and muscular discomfort while improving blood circulation. This special Ortholife mattress has been specifically designed to support the spine and back muscles and to fill the gap under the lower back while letting the rest of the body fully relax.

MEMORY FOAM

The NASA approved memory foam layer makes the body literally float on the mattress, improving blood circulation and delivering unparalleled comfort. Also, its low bounce back properties, ensures that there is almost no pressure on our body's stress points.

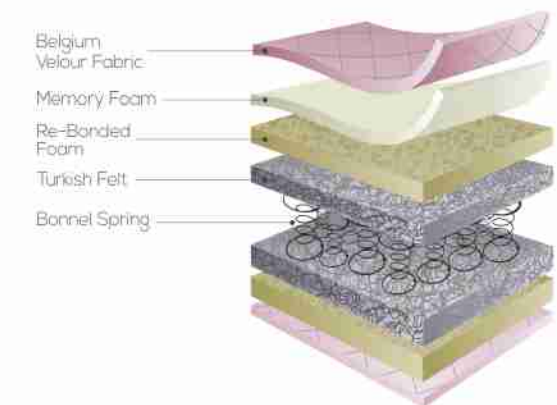

RE-ACTIVE FOAM

This open cell foam is created from shredded pieces of foam, which is then re-activated to form one single piece of foam. Re-active foam is very dense and provides a solid and firm support base. The extraordinary density ensures ample support for the spine and optimal distribution of body weight.

GOOD FOR BACK

This special mattress benefits your back in multiple ways. A memory foam layer provides support and improves blood circulation, while Bonnell springs with the re-active foam provide a firm base, so that even the gap under the lower back gets support.

SPRINGFIT
DX
Collection

DESIGN AND FUNCTION
IN EXQUISITE HARMONY

In a world that strives for balance, we take pride in bringing you a collection that creates a subtle chemistry between aesthetics and ergonomics. The DX Collection merges a luxurious surface texture with fine design principles, an eye for functional details with a designer outlook. A collection that brings together the best of two worlds, exquisitely.

SPRINGFIT
DX
Collection

DX ECO

The Dx Eco bonnell spring mattress stands out because of its precision quality and premium raw materials. The most advanced machinery is used to manufacture these mattresses that are aimed at everyone who needs world-class back support backed by cutting-edge technology.

TURKISH FELT

Turkish thermo bonded felt is an essential component of Springfit mattresses. This layer of felt dampens sound and the movement of springs ensuring that you get only undisturbed sleep. Turkish felt also increases the durability and life of mattresses.

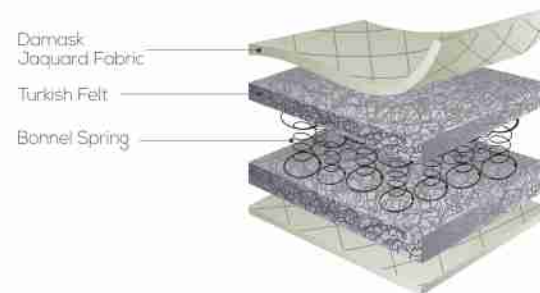

CARBON-MANGANESE ALLOY SPRINGS

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

BREATHABLE QUILTED COVER

The layer that is in touch with your skin plays a very important role. The quilted cover comes right over the top layer of foam, and its fabric keeps the mattress soft and also helps in keeping away bacteria, fungus etc. The Jaquard fabric used to cover the top layer of the mattress is breathable and soothing to our skin.

DX GOLD

DX Gold has a core of inter-linked bonnell springs, and is adorned by a quilt of floral fabric and fibre-foam layers. It gives your back the luxury it deserves while easing the heavy pressure points of the body. Simply enjoy the best sleep as an unparalleled blend of comfort, colours and luxury lull you into the deepest slumber.

TURKISH FELT

Turkish thermo bonded felt is an essential component of Springfit mattresses. This layer of felt dampens sound and the movement of springs ensuring that you get only undisturbed sleep. Turkish felt also increases the durability and life of mattresses.

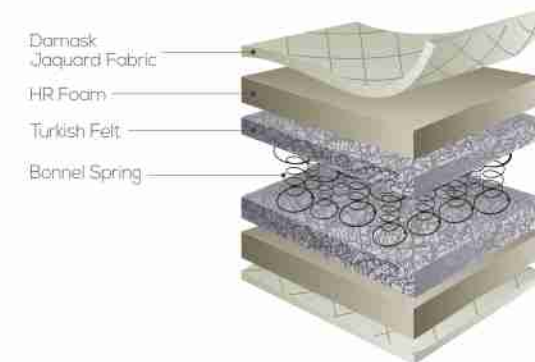

CARBON-MANGANESE ALLOY SPRINGS

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

PILLOW TOP DESIGN

Infused with Active Technology Support of the coil innerspring for providing body conforming comfort, the pillow top design adds an extra layer of comfort. This component blends multiple quilting layers and comfort layers which deliver an unmatched sleep quality.

DX PLATINUM

Indulge in the Springfit DX Platinum mattress, which brings together ergonomic pocketed springs, the best quality material, superior craftsmanship and the latest technology. At the heart of this mattress are the delicately cuddled pocket springs, which provide an altogether different level of comfort. Add to this premium quality filling and superior ultra-soft upholstery and you get luxury, comfort and the most restful sleep ever.

HR FOAM

With the 100% pure, intelligent HR PUF and the inside ZIP, this foam becomes highly resilient and its soft dispersion qualities eliminates the creation of any kind of pressure points.

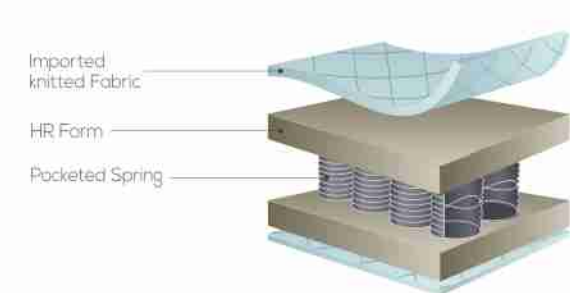

CARBON-MANGANESE ALLOY SPRINGS

Springfit proudly introduce carbon-manganese alloy pocketed spring mattresses in India for the first time. These alloy springs are double tempered to give better elasticity and the extra strength of carbon. They also exhibit the rust and corrosion-resistant properties of manganese.

NATURAL FILLINGS

Flax adds comfort, durability, flexibility and removes static electricity, which can cause headaches, dry mucus membranes, itchy skin and aggravate allergies. At Springfit we use flax layers to remove static electricity. Furthermore, flax is a fantastic noise and vibration absorber, which improves your sleep quality.

MEETS INTERNATIONAL FIRE STANDARDS

Cotton is possibly nature's softest and most comfortable gift to mankind. It provides wonderful comfort and breathability, allows air to circulate around your body, keeps you dry and comfortable. Overall cotton creates a healthy and rejuvenating sleeping environment, that helps you to fall asleep faster and sleep better.

 Contract Beds

Bedding Collection

The Springfit Bedding Collection weaves together creativity and quality with technology and experience. They fit in perfectly into the Springfit universe of comfort, rejuvenation and style, with their high standard of quality and aesthetics. Using material with high thread counts with fabrics like cotton and polyester blends, they are in alignment with

Duvet and Quilts

The Springfit duvet is perfect for a cozy and comfortable sleep experience during winters. Light weight, durable, hygienic and elegant, the Platinum Quilt is made from a higher thread count 100% pure cotton fabric, and boasts of attractive enchanting in looks.

Mattress Protector

The superior quality Springfit mattress protectors go over your mattress to protect it from water, tea or any type of liquid spills. They add a touch of elegance and also add some bulk, so that there is an increase in the size of the mattress.

Bed Linen

The Springfit range of bed linen comes in a wide array of thread counts from 200TC to 400TC, though our recommended thread count is 300TC, as it delivers ideal levels of comfort, luxury and aesthetics. The span of the Springfit bed line range covers plain weaves and dobby, and also polyester blended fabrics that are specific to a customer's requirements.

Mattress Topper

The Springfit mattress topper turns an excessively firm bed into a comfortable and soft one. Springfit mattress toppers are made from superior microfiber stuffing, which is a much more comfortable and also has hypoallergenic properties.

Folding Roll-Away Bed

The Springfit Folding Roll-Away Bed is one of the most admired products in the hospitality industry, and satisfies the needs of the most discerning guests. The unique design features a strong folding frame, heavy duty metal legs, better support structure, a premium quality mattress in two attached pieces and smooth rolling wheels. This bed

Roll-Away Bed

The Springfit non-foldable Roll-Away Bed is geared to give the most discerning guests a truly comfortable and rejuvenating night's sleep. The main advantage of this roll-away bed is the one piece, no joint spring mattress, which creates a uniform sleeping surface that is as good as any regular bed. The unique design features a sturdy frame, heavy duty metal legs, strong support structure, a high-end mattress and smooth rolling wheels. This bed lines up

CRAFTING RESTFUL SLEEP FOR A RESTLESS WORLD

We craft sleep for a restless world. A world that refuses to slow down. A world full of people who are waking up far too tired. For those who understand the true value of sleep, our mattresses are a natural extension of their lives. We are passionate about crafting deep restful sleep, because we know there are few things more important. For generations, we have been refining our techniques, innovating new materials and honing our craftsmanship. All to uphold a solemn promise, to
